

CQ BESTPRAC GROUP AND CHRRUP

# ROTATIONAL GRAZING

The day will be hosted by Graeme and Susan McDonald and run by Mick Alexander (Grazing BestPrac) and CHRRUP (Central Highlands). The McDonalds have successfully rotated large mobs through small paddocks for more than 10 years. This will be the perfect opportunity to assess the management techniques involved in a large rotational grazing enterprise. The focus will be to learn some of Graeme's techniques for managing pasture and developing land. We will inspect paddocks being managed in various rotations to better understand how you could utilise the same ideas.
